

MEDIATORS ARE
IN GLOOMY MOODFeeling Prevails Conference Has
Accomplished Little.

SESSIONS HAVE AVERTED WAR

Outside of Preventing Hostilities Be-
tween the United States and Mex-
ico the Conference Has Been Unable
to Make Any Progress, Particularly
in Regard to Pacification of Mexico.Niagara Falls, Ont., June 30.—Med-
iation is in a most complex state.
Its principals are undecided whether
to adjourn formally or to recess and
renew their efforts through the Amer-
ican government to bring the Consti-
tutionalist and Huerta delegates into
conference for the solution of Mex-
ico's internal problems.While the signing of the series of
protocols covering various phases of
the international situation has
brought forth confident expressions
from some quarters here that media-
tion has been a success skepticism
has arisen among others vitally con-
nected with the proceedings as to
whether anything of value actually
has been accomplished.That war has been averted is ad-
mitted generally, but of the actual
pacification of Mexico few see any
visible signs.The protocols already signed set
forth in effect the conditions under
which the United States will recog-
nize a new government in Mexico.
Everything, however, is conditioned
on the establishment of a provisional
government which may be the result
of an agreement between the two
warring factions.

Huerta Delegates Silent.

Minister Naon, who is believed to
be on intimate terms with the Con-
stitutionalists, as he recently has been
in private and secret communication
with their representatives in Wash-
ington, professes optimism. Minister
Suarez and Ambassador Da Gama are
understood to be much less confident
and rather skeptical. The Huerta
delegates are noncommittal.In the meantime the widening
breach between Carranza and Villa
and the weak resistance being offered
by Huerta troops to the Constitution-
alist advance are producing grave
apprehension that a military conquest
of Mexico City is likely while media-
tion is in session which may perhaps
provoke the international controversy
anew.

CARRANZA ENTERS DENIAL

Says American Business Men Have
Not Aided Rebels.Monterey, Mex., June 30.—Publi-
cation in the United States of reports
that the Constitutionalist movement
has been assisted by the United
States government with the idea of
benefiting certain business interests
in Mexico, particularly railway lines,
caused the following signed state-
ment to be issued by General Carranza:"I desire to make known, as a re-
sult of articles published in the United
States, that the constitutional govern-
ment has no compromises with that
nation (meaning the United States)
or any other. I have received no
pecuniary assistance from foreign
governments or citizens, and from the
beginning of the present revolution it
has been solely sustained by national
funds, and will be until the end."

URGES BRITONS TO LEAVE

Sir Lionel Carden Refers to Conditions
in Mexico.Mexico City, June 30.—In view of
the existing conditions in Mexico Sir
Lionel Carden, the British minister,
advised all British subjects temporar-
ily to leave the country. He said the
shortage of fuel in the operation of
trains is growing more acute daily
and that the trains probably soon will
stop running, which will make difficult
the departure of persons in the inter-
ior.Sir Lionel Carden said he believes
it to be his duty to urge all British
subjects to leave the capital immedi-
ately and he advised that the women
especially be removed.The minister declared he has no de-
sire to frighten the members of the
British colony. He said he has not
ordered them to go, such a course
only being advised.

Remains of Archduke Francis Ferdi-
nand and His Wife, the Duchess of
Hohenberg, Are Taken to Vienna.
Striking Scenes Occur During Loyal
Demonstrations at Scene of the As-
sassination.Sarajevo, June 30.—After the bodies
of Archduke Francis Ferdinand and
the Duchess of Hohenberg had re-
posed for a time in the chapel of the
palace they were transferred to a
special train for transportation to
Vienna.The executive of the diet posted a
manifesto throughout the city de-
nouncing the crime that had ended
the lives of the heir to the Austrian
throne and his wife.Anti-Serbian demonstrations were
attacked and troops were called out
to keep order. These demonstrations
necessitated the proclamation of mar-
tial law.The majority of the populace im-
mediately obeyed the request to dis-
perse and the town is quiet. Two
bombs were thrown but only one per-
son was hurt.Striking scenes occurred here dur-
ing loyal demonstrations in honor of
the Austrian imperial family. Long
processions of Croatian and Moslem
youths, carrying black flags and por-
traits of the emperor, the dead arch-
duke and duchess, marched through
the streets, accompanied by enor-
mous crowds, singing the national an-
them and raising patriotic cheers.Speeches were made at the scene
of the tragedy and the public knelt
and prayed reverently for the life of
the emperor and the souls of the late
archduke and duchess. There was a
display of intense emotion, many
weeping and sobbing.To the police authorities Nedeljo
Gabrinovic, who hurled the bomb at
the archduke's automobile, admitted
that he was in Belgrade a short time
ago. There he obtained the bombs.

PASSENGERS ARE ALL SAFE

Taken From Anchor Liner After Ves-
sel Runs Aground.Londonderry, June 30.—Three hun-
dred and forty-eight of the 1,016 pas-
sengers of the Anchor liner steamer
California, ashore on Torry island,
were landed here. The others were
taken to Glasgow.In a thick fog the California ran
on the rocks Sunday night while
bound from New York for Glasgow.
According to the passengers there
was no panic when the liner struck.
The sea was calm and the vessel ap-
parently was moving less than seven
knots an hour.The shock was slight, but the sud-
den stopping of the California caused
some commotion. The captain and
officers speedily restored confidence
and as a precautionary measure the
boats were swung out. They were
not lowered, however.

\$25,000 for the proposed celebration
of the anniversary of the signing of
the treaty of Ghent, and 100 years of
peace between English speaking na-
tions, was brought up in the house,
under suspension of the rule and was
defeated by a vote of 185 to 52.

Devoted to Boundary Waters.Washington, June 30.—An amend-
ment to the sundry civil appropriation
bill to increase to \$115,000 the amount
to be spent in making a survey of
boundary waters between the United
States and Canada was offered by
Senator Nelson.The amendment provides that a sur-
vey shall be made of Lake of the

necting waters between that lake and

mining the lake level with a view to

HELP CROP MOVINGSecretary McAdoo Mails Letter
to National Banks.Washington, June 30.—Secretary
McAdoo mailed a letter to each of the
7,400 national banks in the United
States asking whether they believe it
will be advisable for the treasury de-
partment to lend a hand again this
year in the movement of crops by dis-
tributing additional government de-
posits.The secretary asked for an opinion
as to what cities in each state may
be used to the best advantage as cen-
ters from which the national banks
may place the money among their
country correspondents and as to the
sort of collateral which the bankers
regard as best for the security of
government funds."While it is expected that the fed-
eral reserve banks will begin business
in time to assist in moving the crops
this fall," the letter concluded, "the
treasury department nevertheless will
be prepared to help business to the
full extent of its powers through the
proper use of government funds, if it
becomes apparent that such help is
needed in any section of the coun-
try."Last year Secretary McAdoo de-
posited more than \$37,000,000 with na-
tional banks for crop movements and
every cent of the money was paid
back with interest before April of this
year.

TO LONG SESSIONCongress Has Itself to Blame
For Continuous Work.

MUCH TIME WAS WASTED.

Members Should Have Known That
President Wilson Would Insist on
Carrying Out of His Program—Sen-
ator Shively of Indiana Tells of Two
Different Kinds of Democrats.

By ARTHUR W. DUNN.

Washington, June 30.—[Special.]—
Discontent manifests itself from time
to time in congress on account of the
necessity of remaining in Washington.At the beginning of the present ses-
sion of congress predictions were made
that an adjournment might be had in
May, at least not later than the middle
of June, and suggestion that the ses-
sion would run into July was considered
absurd. The members of congress
argued that they had been in contin-
uous session ever since the 4th of April
a year ago, and for that reason they
should have an early adjournment this
year.There is no reason why such an idea
should have prevailed, because con-
gress legislates slowly, and members
ought to have known that President
Wilson is a man who puts through his
program no matter if it is of great in-
convenience to himself as well as to
congress.

Congress to Blame.

Whenever members of congress get
angry about being compelled to remain
in constant session they forget that
they can blame themselves. Last year
congress absolutely refused to do any-
thing except to consider a few bills.
For months the house went along
without a quorum and without doing
any business. The senate, too, con-
tributed to the general delay by much
longer debate on the tariff and the cur-
rency measure than was necessary.
Both of these bills were held so long
in committee that they delayed the
session greatly, and yet all the com-
mittee work had to be done over again
when the bills were brought into the
senate.

Two Kinds of Democrats.

An old contention over the politics of
consular officers came up in the senate
recently. Most of the officers now in
the service were appointed by Republi-
can presidents and are nearly all Re-
publicans. Then a sort of a civil ser-
vice arrangement was made by which
they retained their positions. The
Democrats do not like that condition,
but cannot get around it easily. It
was during a discussion of this feature
of the consular service that Senator
Sutherland of Utah said that a number
of Democratic appointments had been
made by Republican presidents."The senate will take notice," said
Senator Shively of Indiana, "that there
are two kinds of Democrats for the
purpose of appointment. There is a
Democrat who votes the Democratic
ticket and there is a professed Demo-
crat who does not vote the Democratic
ticket." Shively was inclined to think
that the Democrats to whom Suther-
land referred were of the latter class.

Arizona Cotton.

During the debate on the Indian ap-
propriation bill Senator Mark Smith
brought out the fact that the much de-
sired long staple cotton is raised on
the Pima Indian reservation between
the Mesa and the Gila rivers in Ari-
zona. In reply to a question by Sen-
ator Smoot Smith said that the best
cotton in the world was raised by these
Indians.

Dew Poison.

It takes the farmers to inculcate ordi-
nary facts into the minds of many
members of congress. A discussion in
the house was going on the other day,
and Quin of Mississippi said that a
farmer was liable to sunstroke and
dew poison. McCoy of New Jersey
wanted to know what dew poison was,
and Quin explained that it was caused
by the brushing of the wet grass
against the ankles. The grass will
sometimes cut like a sharp knife and
poison from the dew will result.

A Losing Fight.

Ban Johnson of Kentucky and Bu-
chanan of Illinois have been prosecut-
ing a losing fight every two weeks in
trying to get District of Columbia leg-
islation considered. Chairman Fitz-
gerald has beaten them off with an ap-
propriation bill. Johnson is interested
in District of Columbia business, and
Buchanan is interested to the extent
of getting a labor bill for the District
of Columbia passed. Probably after
the appropriation bills are out of the
way there will be an opportunity for
these measures as well as a number of
others.

Patriotism or Cowardice.

Having more time on its hands than
it really knew what to do with, the
house had a discussion the other day
as to whether men were guided in
their votes by patriotism or cowardice.
As a matter of fact, most men vote
the way they think their constituents
want them to. If in so doing they vote
against their convictions they might be
classified as cowards, but if they vote
for their convictions and against their con-
stituents they belong to the patriot
class. And soon they find that the
patriot class means out of office class.

me only twice."—Princeton Tiger.

PENA BECOMES CANDIDATE

Former Mexican War Minister After
the Presidency.Mexico City, June 30.—In well in-
formed circles it is reported that Gen-
eral Angel Gargia Pena, who was min-
ister of war in the Madero adminis-
tration, but is now one of Huerta's
commanders, is to be a candidate for
the presidency of the republic in the
elections to be held next Sunday in
that part of the country controlled
by the government.CLEARING HOUSE TO
ADJUST ALL CLAIMSRisk Men Take Action at Salem
to Protect Policyholders.Salem, Mass., June 30.—An insur-
ance clearing house for the adjust-
ment of all claims growing out of last
Thursday's fire is to be established
here at once, according to an agree-
ment reached at a meeting of the ad-
justers of the companies concerned.
By this plan it is expected all policies
will be recorded systematically and
payments arranged as promptly as
possible.The action of the adjusters was
taken after an announcement from
John A. Cabeen, president of the
board of trade, that speculators had
been at work among the holders of
policies, trying to buy up their claims
by representing that adjustments with
the companies would be long delayed.
Mr. Cabeen said he was informed that
some policyholders had sold their
claims on a basis of 50 per cent.
The roofs of the rebuilt city are to
be as nearly fireproof as possible.
The city council voted that all new
buildings must have roofs of fire-
proof material and recommended that
fireproof construction be followed
generally wherever possible.

FALL SHORT OF ESTIMATES

Government Receipts for Fiscal Year
Just Ended.Washington, June 30.—Today marks
the close of the first full fiscal year
under the Democratic administration.
Figures made public show that up to
and including last Saturday the gov-
ernment's receipts had been \$694,505,
077.23, as against \$699,084,417.60 for
the corresponding period of the last
fiscal year.The estimate of Secretary McAdoo
of the receipts for this fiscal year,
made in his annual report last year,
was \$733,000,000. Delay in the pay-
ment of income tax doubtless will
make it impossible to obtain a defi-
nite figure on the government's in-
come for some time. The total assess-
ment returned on personal income
tax is \$30,750,000, or \$23,250,000 less
than Mr. McAdoo expected to derive
from that source.

LARGE FLYWHEEL BURSTS

Extensive Damage Done in St. Louis
Factory.St. Louis, June 30.—An eight-ton
flywheel in the engine room at the
Union Brewery broke and partly
wrecked the refrigerating plant. The
wheel was twenty-four feet in diam-
eter and normally made sixty revolu-
tions a minute.The loss is estimated at more than
\$50,000. No one was injured. The ac-
cident was due to a sudden and enor-
mous increase in the speed of the
wheel.

RUSSIAN PRESS IS BITTER

Anti-Austrian Feeling Shown in Dis-
cussing Double Murder.St. Petersburg, June 30.—The com-
ments of the Russian press on the as-
sassination of Archduke Francis Fer-
dinand and his consort reflects the
bitterness of the anti-Austrian senti-
ment of the Russian nation.Some of the newspapers refer to
the assassination as an "opportunity
for Austria to change her course," and
they declare the murdered archduke
"bore in himself the spark which was
to kindle a European conflagration."

TRUE BILL AGAINST DEAD MAN

Grand Jury of Middlesex County,
Mass., Indicts Eighteen Persons on
Various Charges in Connection With
the Financing of the Hampden Rail-
road From Bondsville to Springfield.Cambridge, Mass., June 30.—Eight-
een persons, including Charles S.
Mellen, former president of the New
York, New Haven and Hartford and
the Boston and Maine railroad com-
panies; Frederick S. Moseley of F. S.
Moseley & Co., Boston brokers; the
late Ralph D. Gillett of Westfield and
the investment committees of two
savings banks of this city, were in-
dicted by the Middlesex county grand
jury on various charges in connection
with the financing of the Hampden
railroad from Bondsville to Spring-
field. Mr. Gillett was president of the
Hampden railroad corporation.The railroad was built a year ago
as a link to connect the Central Mas-
sachusetts division of the Boston and
Maine with the New Haven road, but
has never been operated, an attempt
to obtain the legislature's consent to
its lease to the Boston and Maine hav-
ing failed.The indictments against Messrs.
Mellen, Moseley and Gillett allege
conspiracy to induce the investment
committees of the two banks to lend
a total of \$45,000 to the corporation.
The notes securing the loans were
endorsed by the Hampden investment
company, organized by Mr. Gillett to
finance the construction of the rail-
road, which cost approximately \$4-
000,000.The investment committee of the
East Cambridge Savings bank is in-
dicted on three counts of conspiracy
to lend sums of \$20,000, \$16,000 and
\$5,000 to the Hampden Railroad com-
pany.

MEDIATORS ARE
IN GLOOMY MOODFeeling Prevails Conference Has
Accomplished Little.

SESSIONS HAVE AVERTED WAR

Outside of Preventing Hostilities Be-
tween the United States and Mex-
ico the Conference Has Been Unable
to Make Any Progress, Particularly
in Regard to Pacification of Mexico.Niagara Falls, Ont., June 30.—Med-
iation is in a most complex state.
Its principals are undecided whether
to adjourn formally or to recess and
renew their efforts through the Amer-
ican government to bring the Consti-
tutionalist and Huerta delegates into
conference for the solution of Mex-
ico's internal problems.While the signing of the series of
protocols covering various phases of
the international situation has
brought forth confident expressions
from some quarters here that medi-
ation has been a success skepticism
has arisen among others vitally con-
nected with the proceedings as to
whether anything of value actually
has been accomplished.That war has been averted is ad-
mitted generally, but of the actual
pacification of Mexico few see any
visible signs.The protocols already signed set
forth in effect the conditions under
which the United States will recog-
nize a new government in Mexico.
Everything, however, is conditioned
on the establishment of a provisional
government which may be the result
of an agreement between the two
warring factions.

Huerta Delegates Silent.

Minister Naon, who is believed to
be on intimate terms with the Con-
stitutionalists, as he recently has been
in private and secret communication
with their representatives in Wash-
ington, professes optimism. Minister
Suarez and Ambassador Da Gama are
understood to be much less confident
and rather skeptical. The Huerta
delegates are noncommittal.In the meantime the widening
breach between Carranza and Villa
and the weak resistance being offered
by Huerta troops to the Constitution-
alist advance are producing grave
apprehension that a military conquest
of Mexico City is likely while medi-
ation is in session which may perhaps
provoke the international controversy
anew.An important protocol is to be
signed before the mediators can ad-
journ formally. They have not ob-
tained an explicit agreement between
the American and Huerta delegates
on the language of the protocol relat-
ing to the future evacuation of Vera
Cruz by American troops. This had
been left for consideration until the
provisional president had been agreed
upon by the two Mexican factions.

CARRANZA ENTERS DENIAL

Says American Business Men Have
Not Aided Rebels.Monterey, Mex., June 30.—Publi-
cation in the United States of reports
that the Constitutionalist movement
has been assisted by the United
States government with the idea of
benefiting certain business interests
in Mexico, particularly railway lines,
caused the following signed state-
ment to be issued by General Carranza:"I desire to make known, as a re-
sult of articles published in the United
States, that the constitutional gov-
ernment has no compromises with that
nation (meaning the United
States) or any other. I have received
no pecuniary assistance from foreign
governments or citizens, and from the
beginning of the present revolution
it has been solely sustained by na-
tional funds, and will be until the
end."

URGES BRITONS TO LEAVE

Sir Lionel Carden Refers to Conditions
in Mexico.Mexico City, June 30.—In view of
the existing conditions in Mexico Sir
Lionel Carden, the British minister,
advised all British subjects tempo-
rarily to leave the country. He said
the shortage of fuel in the operation of
trains is growing more acute daily
and that the trains probably soon will
stop running, which will make difficult
the departure of persons in the in-
terior.Sir Lionel Carden said he believes
it to be his duty to urge all British

Remains of Archduke Francis Ferdi-

Hohenberg, Are Taken to Vienna.
Striking Scenes Occur During Loyal
Demonstrations at Scene of the As-
sassination.Sarajevo, June 30.—After the bodies
of Archduke Francis Ferdinand and
the Duchess of Hohenberg had re-
posed for a time in the chapel of the
palace they were transferred to a
special train for transportation to
Vienna.The executive of the diet posted a
manifesto throughout the city de-
nouncing the crime that had ended
the lives of the heir to the Austrian
throne and his wife.Anti-Serbian demonstrations were
attacked and troops were called out
to keep order. These demonstrations
necessitated the proclamation of mar-
tial law.The majority of the populace im-
mediately obeyed the request to dis-
perse and the town is quiet. Two
bombs were thrown but only one per-
son was hurt.Striking scenes occurred here dur-
ing loyal demonstrations in honor of
the Austrian imperial family. Long
processions of Croatian and Moslem
youths, carrying black flags and por-
traits of the emperor, the dead arch-
duke and duchess, marched through
the streets, accompanied by enor-
mous crowds, singing the national an-
them and raising patriotic cheers.Speeches were made at the scene
of the tragedy and the public knelt
and prayed reverently for the life of
the emperor and the souls of the late
archduke and duchess. There was a
display of intense emotion, many
weeping and sobbing.To the police authorities Nedeljo
Gabrinovic, who hurled the bomb at
the archduke's automobile, admitted
that he was in Belgrade a short time
ago. There he obtained the bombs.

PASSENGERS ARE ALL SAFE

Taken From Anchor Liner After Ves-
sel Runs Aground.Londonderry, June 30.—Three hun-
dred and forty-eight of the 1,016 pas-
sengers of the Anchor line steamer
California, ashore on Torry island,
were landed here. The others were
taken to Glasgow.In a thick fog the California ran
on the rocks Sunday night while
bound from New York for Glasgow.
According to the passengers there
was no panic when the liner struck.
The sea was calm and the vessel ap-
parently was moving less than seven
knots an hour.The shock was slight, but the sud-
den stopping of the California caused
some commotion. The captain and
officers speedily restored confidence
and as a precautionary measure the
boats were swung out. They were
not lowered, however.

Senator Nelson Asks \$150,000 to Be
Devoted to Boundary Waters.Washington, June 30.—An amend-
ment to the sundry civil appropriation
bill to increase to \$115,000 the amount
to be spent in making a survey of
boundary waters between the United
States and Canada was offered by
Senator Nelson.The amendment provides that a sur-
vey shall be made of Lake of the
Woods and other boundary and con-
necting waters between that lake and
Lake Superior and Lake Champlain.Provision is also made for deter-
mining the lake level with a view to
their regulation.TREASURY READY TO
HELP CROP MOVINGSecretary McAdoo Mails Letter
to National Banks.Washington, June 30.—Secretary
McAdoo mailed a letter to each of the
7,400 national banks in the United
States asking whether they believe it
will be advisable for the treasury de-
partment to lend a hand again this
year in the movement of crops by dis-
tributing additional government de-
posits.The secretary asked for an opinion
as to what cities in each state may
be used to the best advantage as cen-
ters from which the national banks
may place the money among their
country correspondents and as to the
sort of collateral which the bankers
regard as best for the security of
government funds."While it is expected that the fed-
eral reserve banks will begin business
in time to assist in moving the crops
this fall," the letter concluded, "the
treasury department nevertheless will
be prepared to help business to the
full extent of its powers through the
proper use of government funds, if it
becomes apparent that such help is
needed in any section of the coun-
try."Last year Secretary McAdoo de-
posited more than \$37,000,000 with na-
tional banks for crop movements and
every cent of the money was paid
back with interest before April of this
year.

TO LONG SESSIONCongress Has Itself to Blame
For Continuous Work.

MUCH TIME WAS WASTED.

Members Should Have Known That
President Wilson Would Insist on
Carrying Out of His Program—Sen-
ator Shively of Indiana Tells of Two
Different Kinds of Democrats.

By ARTHUR W. DUNN.

Washington, June 30.—[Special.]—
Discontent manifests itself from time
to time in congress on account of the
necessity of remaining in Washington.At the beginning of the present ses-
sion of congress predictions were made
that an adjournment might be had in
May, at least not later than the middle
of June, and suggestion that the ses-
sion would run into July was consid-
ered absurd. The members of congress
argued that they had been in contin-
uous session ever since the 4th of April
a year ago, and for that reason they
should have an early adjournment this
year.There is no reason why such an idea
should have prevailed, because con-
gress legislates slowly, and members
ought to have known that President
Wilson is a man who puts through his
program no matter if it is of great in-
convenience to himself as well as to
congress.

Congress to Blame.

Whenever members of congress get
angry about being compelled to remain
in constant session they forget that
they can blame themselves. Last year
congress absolutely refused to do any-
thing except to consider a few bills.
For months the house went along
without a quorum and without doing
any business. The senate, too, con-
tributed to the general delay by much
longer debate on the tariff and the cur-
rency measure than was necessary.
Both of these bills were held so long
in committee that they delayed the
session greatly, and yet all the com-
mittee work had to be done over again
when the bills were brought over into
the senate.

Two Kinds of Democrats.

An old contention over the politics of
consular officers came up in the senate
recently. Most of the officers now in
the service were appointed by Republi-
can presidents and are nearly all Re-
publicans. Then a sort of a civil ser-
vice arrangement was made by which
they retained their positions. The
Democrats do not like that condition,
but cannot get around it easily. It
was during a discussion of this feature
of the consular service that Senator
Sutherland of Utah said that a number
of Democratic appointments had been
made by Republican presidents."The senate will take notice," said
Senator Shively of Indiana, "that there
are two kinds of Democrats for the
purpose of appointment. There is a
Democrat who votes the Democratic
ticket and there is a professed Demo-
crat who does not vote the Democratic
ticket." Shively was inclined to think
that the Democrats to whom Suther-
land referred were of the latter class.

Arizona Cotton.

During the debate on the Indian ap-
propriation bill Senator Mark Smith
brought out the fact that the much de-
sired long staple cotton is raised on
the Pima Indian reservation between
the Mesa and the Gila rivers in Ari-
zona. In reply to a question by Sen-
ator Smoot Smith said that the best
cotton in the world was raised by these
Indians.

Dew Poison.

It takes the farmers to inculcate ordi-
nary facts into the minds of many
members of congress. A discussion in
the house was going on the other day,
and Quin of Mississippi said that a
farmer was liable to sunstroke and
dew poison. McCoy of New Jersey
wanted to know what dew poison was,
and Quin explained that it was caused
by the brushing of the wet grass
against the ankles. The grass will
sometimes cut like a sharp knife and
poison from the dew will result.

A Losing Fight.

Ban Johnson of Kentucky and Bu-
chanan of Illinois have been prosecut-
ing a losing fight every two weeks in
trying to get District of Columbia leg-
islation considered. Chairman Fitz-
gerald has beaten them off with an ap-
propriation bill. Johnson is interested
in District of Columbia business, and
Buchanan is interested to the extent
of getting a labor bill for the District
of Columbia passed. Probably after
the appropriation bills are out of the
way there will be an opportunity for
these measures as well as a number of
others.

Patriotism or Cowardice.

Having more time on its hands than
it really knew what to do with, the
house had a discussion the other day
as to whether men were guided by
their votes by patriotism or cowardice.
As a matter of fact, most men vote
the way they think their constituents
want them to. If in so doing they vote
against their convictions they might be
classed as cowards, but if they vote
their convictions and against their con-
stituents they belong to the patriot
class. And soon they find that the
patriot class means out of office class.

Tame.

"Not very much; mother frowned at
me only twice."—Princeton Tiger.

PENA BECOMES CANDIDATE

Former Mexican War Minister After
the Presidency.Mexico City, June 30.—In well in-
formed circles it is reported that Gen-
eral Angel Garcia Pena, who was min-
ister of war in the Madero adminis-
tration, but is now one of Huerta's
commanders, is to be a candidate for
the presidency of the republic in the
elections to be held next Sunday in
that part of the country controlled
by the government.CLEARING HOUSE TO
ADJUST ALL CLAIMSRisk Men Take Action at Salem
to Protect Policyholders.Salem, Mass., June 30.—An insur-
ance clearing house for the adjust-
ment of all claims growing out of last
Thursday's fire is to be established
here at once, according to an agree-
ment reached at a meeting of the ad-
justers of the companies concerned.
By this plan it is expected all policies
will be recorded systematically and
payments arranged as promptly as
possible.The action of the adjusters was
taken after an announcement from
John A. Cabeen, president of the
board of trade, that speculators had
been at work among the holders of
policies, trying to buy up their claims
by representing that adjustments with
the companies would be long delayed.
Mr. Cabeen said he was informed that
some policyholders had sold their
claims on a basis of 50 per cent.The roofs of the rebuilt city are to
be as nearly fireproof as possible.
The city council voted that all new
buildings must have roofs of fire-
proof material and recommended that
fireproof construction be followed
generally wherever possible.

FALL SHORT OF ESTIMATES

Government Receipts for Fiscal Year
Just Ended.Washington, June 30.—Today marks
the close of the first full fiscal year
under the Democratic administration.
Figures made public show that up to
and including last Saturday the gov-
ernment's receipts had been \$684,505,-
077.23, as against \$689,084,417.50 for
the corresponding period of the last
fiscal year.The estimate of Secretary McAdoo
of the receipts for this fiscal year,
made in his annual report last year,
was \$733,000,000. Delay in the pay-
ment of income tax doubtless will
make it impossible to obtain a defi-
nite figure on the government's in-
come for some time. The total assess-
ment returned on personal income
tax is \$30,750,000, or \$23,250,000 less
than Mr. McAdoo expected to derive
from that source.

LARGE FLYWHEEL BURSTS

Extensive Damage Done in St. Louis
Factory.St. Louis, June 30.—An eight-ton
flywheel in the engine room at the
Union Brewery broke and partly
wrecked the refrigerating plant. The
wheel was twenty-four feet in diam-
eter and normally made sixty revolu-
tions a minute.The loss is estimated at more than
\$50,000. No one was injured. The ac-
cident was due to a sudden and enor-
mous increase in the speed of the
wheel.

RUSSIAN PRESS IS BITTER

Anti-Austrian Feeling Shown in Dis-
cussing Double Murder.St. Petersburg, June 30.—The com-
ments of the Russian press on the as-
sassination of Archduke Francis Fer-
dinand and his consort reflects the
bitterness of the anti-Austrian senti-
ment of the Russian nation.Some of the newspapers refer to
the assassination as an "opportunity
for Austria to change her course," and
they declare the murdered archduke
"bore in himself the spark which was
to kindle a European conflagration."

they were playing exploded.

Washington and Athletics Haggling Over the Games, Fighting on the Diamond, Etc.

Who does not remember the exciting days when Brainerd played Little Falls and the umpire was chased from the field? And again at Little Falls where Brainerd and Tom Considine jumped on the grounds and protested a decision? And everybody thought it was something awful.

All that kind of play is being duplicated in the biggest league of the country when Washington and the Philadelphia Athletics come to town.

The Bush game of June 26 was a corker, and went to the Athletics on a forfeit, 9 to 0. Ban Johnson, president of the American league, was mad about the game and said: "I thought that sort of thing was over in the big leagues". Pending the arrival of reports from Umpires Chill and Sheridan, President Johnson will take no further action as the result of the forfeiture of the game by Washington at Philadelphia.

The trouble in the game June 26 arose over the manner in which Engel, pitcher for Washington, delivered the ball. Cap. Thomas, of the Philadelphia club, claimed that Engel was making an illegal delivery every time he pitched. Umpire Chill cautioned Engel twice, but the latter persisted in pitching in his usual manner.

After Philadelphia had scored a run in the fourth inning on a single and three bases on balls and with two out, Oldring went to bat. Chill called a ball on Oldring. Capt. McBride, of Washington, requested Chill to show Engel how he should pitch, and the umpire did as requested.

On the next two pitched balls Engel continued to draw penalties of a called ball each time for an unfairly delivered ball. Manager Griffith and eight of the Washington players gathered around Chill and protested vigorously.

Chill finally drew his watch, and after waiting several minutes declared the game forfeited to the Philadelphia club, as the Washington players refused to go to their positions.

The umpires claimed that Engel placed one foot off the pitchers' slab each time he delivered.

On June 27 Walter Johnson, Washington's star twirler, just returned from his honeymoon, yielded four runs to the Athletics in the first inning, the Mackmen winning by a final score of 4 to 2. The game nearly wound up in a free for all fight in the fifth inning when Washington stalled so the game might be called on account of rain. After a twenty-minute intermission the game was resumed.

CITY CLERK IS ROBBED OF \$1,400

Struck on Head with Blackjack Near
Eleven O'Clock Last Night as
He Worked in Office

CASH DRAWER WAS RIFLED

Roderick was Beaten and Choked into
Insensibility—No Clue to
the Robbers

Struck on the head with a blackjack by a robber who entered the offices of the city clerk in the city hall last night, V. N. Roderick was pounded and choked into insensibility and the cash drawer of the safe looted for about \$1,400. No clue has been found of the man or men robbing the clerk. The robbery took place shortly after the Park theatre downstairs had closed its performance. As soon as Roderick came to, he telephoned for aid and a sheriff's posse scoured the town.

When City Clerk Roderick was seen at his home in the Model Laundry flats this morning, his head showed the effects of the pummeling he had received. The top of his head and the side near his right eye were swelled. Clothes were shown which had the buttons ripped off.

Roderick says he was working in his office on the second floor of the city hall and believes the robbery to have taken place after 10:30. He remembers the closing of the theatre below. He worked ten or fifteen minutes more.

The lights in the hall and office were on. He heard some one come up the steps and it made some noise. The lights in the hall were turned out. He did not pay much attention to this as he says the lights have often been turned out by the police.

Then some one tried the door. He had slammed the door when he entered his office and having a catch on the same had presumed the door had locked itself and so paid little attention to the person who tried the door, presuming he would go away when he could not open it.

The next thing he remembers was that the room became dark. There is a switch near the door and this had been turned by the robber.

Roderick had sat as is his usual way, in his chair working at a flat top desk, and his back was turned to the door. He raised from his chair and it was at this point that he thinks he was struck on the head. No cuts were made, but his head was bruised. After he was knocked down, he tried to get up and was then choked and hit in the head. He came to later and crawled around on the floor, fell down and crawled again to the table, pulled down the telephone and about 11:20 got central. Clyde Parker came up, got him in a chair and took him home.

Mr. Roderick believes there was close to \$1,400 in the cash drawer. The vault door was open, as he was just about to put his books away. He said it was unusual to have that much money there, such a thing might not happen once again in a year. He had been working on the board of equalization and so had to work evenings to catch up with his regular city work.

Mr. Roderick does not suspect any certain person of the deed. There had been strange people around during the day. A deaf and dumb man had called in the afternoon and had showed a slate on which had been written a request for permission to sell small articles. The man also showed a copy of an honorable discharge from service in the Philippines. Mr. Roderick wrote on the slate to see the chief of police.

At his home, Mrs. Roderick showed a vest worn by her husband, from which all the buttons had been ripped off. There was money and checks in the cash box in the vault, said Mr. Roderick, but of the exact amount he was not certain.

The new liquor license law calling for \$1,000 license takes effect July 1 and many were sending in their bonds and other papers. In the afternoon \$2,000 had been sent over and

he had sent the men to Treasurer Osahl to leave the money there and they got a receipt and left this with the city clerk.

Officer Varney at 11:15 heard the police gong ring on the corner of Sixth and Laurel and ran from near the National hotel to answer it. Central told him to go to the city hall as there was trouble there. She said she had got the call and it sounded as though some one was in agony. He ran to the city hall and all lights were out.

The door of the city clerk's office was open and the gate inside was also open. Roderick lay on the floor with his head near the south window and near a steam pipe. The vault door was open.

Roderick said: "Oh, my head!" Officer Varney placed him in a chair and then ran down the steps and found Officer Olson. The latter went after a doctor.

Officer Varney says there were bloodstains outside the door which must have been left by the robber, as no blood was drawn on Roderick when he was struck.

Mayor R. A. Henning says the loss amounts to \$1,388.40 in cash. It is not known at this time how many checks, if any, were taken.

E. A. Adams, of the Park theatre, says his house closed at 25 minutes to eleven. As he came out he remembered that he had forgotten to close the outside door. He stopped at the ornamental lamp post in front of the theatre and saw two men standing on the lawn of the Y. M. C. A. to the east.

Mr. Adams saw light in the city clerk's office. Mr. Adams closed his theatre door and walked across the street. The first he heard of the robbery was about 12:15 A. M.

Mr. Adams says Mr. Roderick probably heard him close his theatre doors and Mr. Adams believes it was probably ten minutes after that the city clerk was struck on the head.

Billy McManus, a boy employed on the stage, came from the theatre at 5 minutes to eleven, says Mr. Adams, and the boy told him he saw one man standing outside of the theatre.

Five suspects were arrested following the robbery. Four have been released. One, who came from Duluth on the midnight train, is held. In his pockets were found a loaded gun and brass knuckles.

Descriptions of three suspects have been wired about the country by County Attorney G. S. Swanson. One is of a man five feet nine inches high, deaf and dumb, weight 145 pounds, eyes dark, hair dark and long, partly gray, age about 35 years. Sells manicure sets and carries slate. Was at Little Falls last Saturday. Is clean shaven and wears gray suit and white collar.

The second man is 5 feet 9 inches high, weight 190 to 210 pounds, clean shaven, clean cut features, dark clothes and dark soft shirt, dark felt slouch hat, medium brim, age between 30 and 35 years.

The third man, height 5 feet 5 inches, weight 140 to 160 pounds, clean shaven, clean cut features, dark clothes and dark soft hat, medium brim, age 25 to 35.

County Attorney Swanson has a flowered silk handkerchief found near the clerk's desk which is believed to have been dropped by one of the robbers and looks as though used to conceal the blackjack. A spot of blood was found outside in the hallway, also a chisel with blood on it. It is thought one of the robbers was hurt in getting away. Two men seen boarding a switch engine at night, one having blood on his face, are being traced.

The police are working diligently on the case. The sheriff's office led a posse headed by Deputy Sheriff Claus Theorin, the automobile carrying the deputy sheriff, E. A. Adams of the Park theatre, J. B. Schmidt of the Empress theatre and R. M. Sheets, who in the early morning hours scoured the city, made all freights, barns and shacks in town at 4 o'clock.

The police watched all freight trains and covered the city in conjunction with the sheriff's office, with the result that five arrests were made.

Andrew Booher, a blacksmith employed by Charles Pelkey and living

at 215 North Tenth street, called at the Dispatch office and told a story which he thought might lead to a clue of the robbers. Mr. and Mrs. Booher went to Pequot Monday afternoon at 2:30 and returned to Brainerd on the night train.

Near the train they met a man who shrugged his shoulders and said the county treasurer had been robbed. Mr. Booher said Brainerd was getting to be a pretty hard town. The stranger replied: "I'm glad I'm getting out as good as I did." Then he swung on to the blind baggage and went north on the M. & I. Booher says he was a small man, 5 feet 2 inches tall, wore a gray suit, light felt hat crushed in center. His clothes appeared to be two sizes too big. He had a light complexion, smooth face and was about 25 years old.

CITY CLERK IS ROBBED OF \$1,400

Struck on Head with Blackjack Near
Eleven O'Clock Last Night as
He Worked in Office

CASH DRAWER WAS RIFLED

Roderick was Beaten and Choked into
Insensibility—No Clue to
the Robbers

Struck on the head with a blackjack by a robber who entered the offices of the city clerk in the city hall last night, V. N. Roderick was pounded and choked into insensibility and the cash drawer of the safe looted for about \$1,400. No clue has been found of the man or men robbing the clerk. The robbery took place shortly after the Park theatre downstairs had closed its performance. As soon as Roderick came to, he telephoned for aid and a sheriff's posse scoured the town.

When City Clerk Roderick was seen at his home in the Model Laundry flats this morning, his head showed the effects of the pummeling he had received. The top of his head and the side near his right eye were swelled. Clothes were shown which had the buttons ripped off.

Roderick says he was working in his office on the second floor of the city hall and believes the robbery to have taken place after 10:30. He remembers the closing of the theatre below. He worked ten or fifteen minutes more.

The lights in the hall and office were on. He heard some one come up the steps and it made some noise. The lights in the hall were turned out. He did not pay much attention to this as he says the lights have often been turned out by the police. Then some one tried the door. He had slammed the door when he entered his office and having a catch on the same had presumed the door had locked itself and so paid little attention to the person who tried the door, presuming he would go away when he could not open it.

The next thing he remembers was that the room became dark. There is a switch near the door and this had been turned by the robber.

Roderick had sat as is his usual way, in his chair working at a flat top desk, and his back was turned to the door. He raised from his chair and it was at this point that he thinks he was struck on the head. No cuts were made, but his head was bruised. After he was knocked down, he tried to get up and was then choked and hit in the head. He came to later and crawled around on the floor, fell down and crawled again to the table, pulled down the telephone and about 11:20 got central. Clyde Parker came up, got him in a chair and took him home.

Mr. Roderick believes there was close to \$1,400 in the cash drawer. The vault door was open, as he was just about to put his books away. He said it was unusual to have that much money there, such a thing might not happen once again in a year. He had been working on the board of equalization and so had to work evenings to catch up with his regular city work.

Mr. Roderick does not suspect any certain person of the deed. There had been strange people around during the day. A deaf and dumb man had called in the afternoon and had showed a slate on which had been written a request for permission to sell small articles. The man also showed a copy of an honorable discharge from service in the Philippines. Mr. Roderick wrote on the slate to see the chief of police.

At his home, Mrs. Roderick showed a vest worn by her husband, from which all the buttons had been ripped off. There was money and checks in the cash box in the vault, said Mr. Roderick, but of the exact amount he was not certain.

The new liquor license law calling for \$1,000 license takes effect July 1 and many were sending in their bonds and other papers. In the afternoon \$2,000 had been sent over and

he had sent the men to Treasurer Osahl to leave the money there and they got a receipt and left this with the city clerk.

Officer Varney at 11:15 heard the police gong ring on the corner of Sixth and Laurel and ran from near the National hotel to answer it. Central told him to go to the city hall as there was trouble there. She said she had got the call and it sounded as though some one was in agony. He ran to the city hall and all lights were out.

The door of the city clerk's office was open and the gate inside was also open. Roderick lay on the floor with his head near the south window and near a steam pipe. The vault door was open.

Roderick said: "Oh, my head!" Officer Varney placed him in a chair and then ran down the steps and found Officer Olson. The latter went after a doctor.

Officer Varney says there were bloodstains outside the door which must have been left by the robber, as no blood was drawn on Roderick when he was struck.

Mayor R. A. Henning says the loss amounts to \$1,388.40 in cash. It is not known at this time how many checks, if any, were taken.

E. A. Adams, of the Park theatre, says his house closed at 25 minutes to eleven. As he came out he remembered that he had forgotten to close the outside door. He stopped at the ornamental lamp post in front of the theatre and saw two men standing on the lawn of the Y. M. C. A. to the east.

Mr. Adams saw light in the city clerk's office. Mr. Adams closed his theatre door and walked across the street. The first he heard of the robbery was about 12:15 A. M.

Mr. Adams says Mr. Roderick probably heard him close his theatre doors and Mr. Adams believes it was probably ten minutes after that the city clerk was struck on the head.

Billy McManus, a boy employed on the stage, came from the theatre at 5 minutes to eleven, says Mr. Adams, and the boy told him he saw one man standing outside of the theatre.

Five suspects were arrested following the robbery. Four have been released. One, who came from Duluth on the midnight train, is held. In his pockets were found a loaded gun and brass knuckles.

Descriptions of three suspects have been wired about the country by County Attorney G. S. Swanson. One is of a man five feet nine inches high, deaf and dumb, weight 145 pounds, eyes dark, hair dark and long, partly gray, age about 35 years. Sells manicure sets and carries slate. Was at Little Falls last Saturday. Is clean shaven and wears gray suit and white collar.

The second man is 5 feet 9 inches high, weight 190 to 210 pounds, clean shaven, clean cut features, dark clothes and dark soft hat, dark felt slouch hat, medium brim, age between 30 and 35 years.

The third man, height 5 feet 5 inches, weight 140 to 160 pounds, clean shaven, clean cut features, dark clothes and dark soft hat, medium brim, age 25 to 35.

County Attorney Swanson has a flowered silk handkerchief found near the clerk's desk which is believed to have been dropped by one of the robbers and looks as though used to conceal the blackjack. A spot of blood was found outside in the hallway, also a chisel with blood on it. It is thought one of the robbers was hurt in getting away. Two men seen boarding a switch engine at night, one having blood on his face, are being traced.

The police are working diligently on the case. The sheriff's office led a posse headed by Deputy Sheriff Claus Theorin, the automobile carrying the deputy sheriff, E. A. Adams of the Park theatre, J. B. Schmidt of the Empress theatre and R. M. Sheets, who in the early morning hours scoured the city, made all freights, barns and shacks in town at 4 o'clock.

The police watched all freight trains and covered the city in conjunction with the sheriff's office, with the result that five arrests were made. Andrew Booher, a blacksmith employed by Charles Pelkey and living

at 215 North Tenth street, called at the Dispatch office and told a story which he thought might lead to a clue of the robbers. Mr. and Mrs. Booher went to Pequot Monday afternoon at 2:30 and returned to Brainerd on the night train.

Near the train they met a man who shrugged his shoulders and said the county treasurer had been robbed. Mr. Booher said Brainerd was getting to be a pretty hard town.

The stranger replied: "I'm glad I'm getting out as good as I did." Then he swung on to the blind baggage and went north on the M. & I. As the strains of the beautiful Mendelssohn wedding march was played by the Terbilcox Harp orchestra the two ushers, Roy Turton and Albert Bergeson walked up the church aisle, followed by the flower girls and the two brides. At the door of church study they were met by Rev. B. E. Ray and Rev. O. L. Robinson and the two grooms.

Miss Hill was married first by Rev. Ray after which Miss Whitman was married by Rev. Robinson, formerly the pastor of the Congregational church in this city and now of Madison, both clergymen using the impressive ring ceremony. After the ceremony the brides proceeded to their separate homes where receptions were held and luncheons were served.

Miss Laura Hill is the daughter of George M. Hill of this city and is held in high esteem by her many friends and acquaintances. She wore a wedding gown of white crepe meteor with silver beaded lace and carried white Killarney roses and was attended by little Miss Juanita Gould, who carried a large bouquet of sweet peas.

The groom, Mr. Arthur Gafke, whose former home was Oregon, Wisconsin, is now a resident of Brainerd, Minn. He is Agricultural agent of the United States Department of Agriculture in Crow Wing county, Minnesota. Both bride and groom are graduates of the Wisconsin University with the class of 1910.

The couple left on the afternoon train for the Twin Cities where they will stay for a short time, before going to their new home. The groom's present to the bride was a beautiful pearl brooch.—Baraboo, Wis., Paper.

Large Percentage of Women Recklessly Follow Prevailing Fashions Without Knowing Why

By Mrs. ROBERT J. BURDETTE, Addressing Federation of Women's Clubs.

NO MATTER IF THE NECK BE EXPOSED NEARLY TO THE WAIST LINE AND THE LIMBS NEARLY HALFWAY TO THE KNEES, IF ONLY THE STYLE BE FOLLOWED HEALTH AND SUGGESTIVENESS ARE LOST SIGHT OF IN THE CRAZE TO BE IN FASHION.

Miss Grace Hutchins, costume designer of Columbia university, says the MORALS OF A WOMAN ARE READ IN HER GOWNS and that slovenly dress indicates her mental traits; that the woman who is ADDICTED TO EXTREME STYLES IS SURE TO BE AN EXTREMIST IN EVERYTHING ELSE. Driving Force In Civilization Found In Liberty and Not In Restriction

By President NICHOLAS MURRAY BUTLER of Columbia University

Photo by American Press Association.

JUST as the driving force of an engine is to be found in the steam chest and not in the brake, so the DRIVING FORCE IN CIVILIZATION WILL BE FOUND IN LIBERTY AND NOT IN RESTRICTION. The cycle will in due time and after a colossal waste of energy and of accomplishment complete itself, and LIBERTY WILL ONCE MORE DISPLACE REGULATION AND RESTRICTION AS THE DOMINANT IDEA IN THE MINDS OF MEN. It is worth while to take note, therefore, that, while liberty is not now in the foreground of human thinking and human action, it cannot long be kept out of the place which of right and of necessity belongs to it.

THE ONLY LOGICAL AND LEGITIMATE RESTRICTION UPON LIBERTY IS THAT WHICH IS DRAWN FROM THE LIKE LIBERTY OF OTHERS. THAT MEN MAY LIVE TOGETHER IN FAMILY, IN SOCIETY AND IN THE STATE LIBERTY MUST BE SO SELF DISCIPLINED AND SO SELF CONTROLLED THAT IT AVOIDS EVEN THE APPEARANCE OF LICENSE OR OF TYRANNY.

Students Who Enter College Young on Average Better Scholars Than Older Ones

By A. LAWRENCE LOWELL, President of Harvard University

SOME men stay only three years in college and hasten to get actively at work in the world, although they feel no financial pressure. Considering the present age of entrance, this is not without justification.

CHILDREN IN THE UNITED STATES ARE SENT TO SCHOOL LATE. BOYS WHO SHOULD BE PREPARED FOR COLLEGE AT SIXTEEN OR SEVENTEEN ARE HELD BACK ON THE THEORY THAT THEY ARE TOO YOUNG TO BE EXPOSED TO THE TEMPTATIONS OF COLLEGE LIFE.

This is clearly a mistake because statistics have demonstrated that STUDENTS WHO ENTER YOUNG ARE ON THE AVERAGE BETTER SCHOLARS THAN THE OLDER ONES.

Government Should Be Partner of Railroads

By Prince ANDRE PONIATOWSKI, Parisian Banker

GOVERNMENT ownership in France has proved a failure. You cannot have government ownership in a country where politics is based on patronage. With government ownership you would have positions in the railroads filled by the politicians. You would not necessarily have three men holding one man's job, but you would have INEFFICIENCY IN EVERYTHING.

IT IS EASY FOR POLITICIANS TO ATTACK AND BREAK DOWN. ANYBODY CAN DO THAT. WHAT THE COUNTRY NEEDS FOR ITS RAILROADS IS A CONSTRUCTIVE PROGRAM. AS A REMEDY I WOULD SUGGEST A HARMONY OF INTERESTS BETWEEN THE GOVERNMENT AND THE RAILWAYS. THE GOVERNMENT SHOULD GO INTO PARTNERSHIP WITH THE RAILROADS.

Mending Celluloid Articles.

The great variety of articles made of celluloid for domestic and personal use gives value to a simple recipe for mending such articles when broken. This consists in dissolving fragments of celluloid in acetone, applying the resulting solution to the broken edges like glue, and then pressing them together. The solution is made in a few minutes and "dries" or hardens within a quarter of an hour. If neatly done it is almost impossible to detect the location of the break. The same method may be used for making small objects, such as boxes, trays, picture frames, etc., from sheets of celluloid. The solution may easily be twisted to any desired shape.

Engineers to Examine Ground For \$20,000,000 Reclamation Plan.

Washington. — The first step in the American Red Cross' far-reaching plan for the prevention of floods in eastern China through a \$20,000,000 reclamation project has been completed with the selection of a board of engineers to examine the ground. The plan has the approval of President Wilson, who was authorized by congress to lend the Red Cross a specified number of army engineers skilled in river work.

The board will consist of Colonel William Luther Silbert of the corps of engineers, U. S. A., builder of the Gatun locks and dam at Panama; Arthur Powell Davis, chief engineer of the United States reclamation service, and Daniel Webster Mead, professor of engineering in the University of Wisconsin. Charles Davis Jameson, general advisory engineer, who made the preliminary examination of the afflicted district and on whose report this board is being sent to China, will accompany the engineers.

When the work is undertaken Colonel Silbert will have the Red Cross recommendation at the request of the Chinese government for appointment as engineer in chief of the conservancy work.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by this treatment, and so successful was the remedy he devised that it has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. Mayr's Wonderful Stomach Remedy is now sold here by

JUST as the driving force of an engine is to be found in the steam chest and not in the brake, so the DRIVING FORCE IN CIVILIZATION WILL BE FOUND IN LIBERTY AND NOT IN RESTRICTION. The cycle will in due time and after a colossal waste of energy and of accomplishment complete itself, and LIBERTY WILL ONCE MORE DISPLACE REGULATION AND RESTRICTION AS THE DOMINANT IDEA IN THE MINDS OF MEN. It is worth while to take note, therefore, that, while liberty is not now in the foreground of human thinking and human action, it cannot long be kept out of the place which of right and of necessity belongs to it.

THE ONLY LOGICAL AND LEGITIMATE RESTRICTION UPON LIBERTY IS THAT WHICH IS DRAWN FROM THE LIKE LIBERTY OF OTHERS. THAT MEN MAY LIVE TOGETHER IN FAMILY, IN SOCIETY AND IN THE STATE LIBERTY MUST BE SO SELF DISCIPLINED AND SO SELF CONTROLLED THAT IT AVOIDS EVEN THE APPEARANCE OF LICENSE OR OF TYRANNY.

Students Who Enter College Young on Average Better Scholars Than Older Ones

By A. LAWRENCE LOWELL, President of Harvard University

SOME men stay only three years in college and hasten to get actively at work in the world, although they feel no financial pressure. Considering the present age of entrance, this is not without justification.

CHILDREN IN THE UNITED STATES ARE SENT TO SCHOOL LATE. BOYS WHO SHOULD BE PREPARED FOR COLLEGE AT SIXTEEN OR SEVENTEEN ARE HELD BACK ON THE THEORY THAT THEY ARE TOO YOUNG TO BE EXPOSED TO THE TEMPTATIONS OF COLLEGE LIFE.

This is clearly a mistake because statistics have demonstrated that STUDENTS WHO ENTER YOUNG ARE ON THE AVERAGE BETTER SCHOLARS THAN THE OLDER ONES.

Mending Celluloid Articles.

The great variety of articles made of celluloid for domestic and personal use gives value to a simple recipe for mending such articles when broken. This consists in dissolving fragments of celluloid in acetone, applying the resulting solution to the broken edges like glue, and then pressing them together. The solution is made in a few minutes and "dries" or hardens within a quarter of an hour. If neatly done it is almost impossible to detect the location of the break. The same method may be used for mending small objects, such as boxes, trays, picture frames, etc., from sheets of celluloid. The solution may easily be twisted to any desired shape.

Engineers to Examine Ground For \$200,000,000 Reclamation Plan.

Washington. — The first step in the American Red Cross' far-reaching plan for the prevention of floods in eastern China through a \$200,000,000 reclamation project has been completed with the selection of a board of engineers to examine the ground. The plan has the approval of President Wilson, who was authorized by congress to lend the Red Cross a specified number of army engineers skilled in river work.

The board will consist of Colonel William Luther Silbert of the corps of engineers, U. S. A., builder of the Gatun locks and dam at Panama; Arthur Powell Davis, chief engineer of the United States reclamation service, and Daniel Webster Mead, professor of engineering in the University of Wisconsin. Charles Davis Jameson, general advisory engineer, who made the preliminary examination of the afflicted district and on whose report this board is being sent to China, will accompany the engineers.

When the work is undertaken Colonel Silbert will have the Red Cross recommendation at the request of the Chinese government for appointment as engineer in chief of the conservancy work.

Here Is Good News for Stomach Victims

Some very remarkable results are being obtained by treating stomach, liver and intestinal troubles with pure vegetable oils, which exert a cleansing, soothing and purifying action upon the lower bowels, removing the obstructions of poisonous fecal matter and gases and preventing their absorption by the blood. This done, the food is allowed free passage from the stomach, fermentation ceases and stomach troubles quickly disappear.

George H. Mayr, for twenty years a leading Chicago druggist, cured himself and many of his friends of stomach, liver and intestinal troubles of years' standing by this treatment, and so successful was the remedy he devised that he has since been placed in the hands of druggists all over the country, who have sold thousands of bottles.

Though absolutely harmless, the effect of the medicine is sufficient to convince any one of its remarkable effectiveness, and within 24 hours the sufferer feels like a new person. My son's Wonderful Stomach Remedy is now sold here by
